

Sri Lanka is renowned for its tea, and with that in mind we have created our own unique blends imported straight to us. Drink it to help quench the heat of a curry or sip it with love cake for a sneaky afternoon respite.

Our non-alcoholic offerings include King coconut water and our own version of Sri Lanka’s famous faluda.

For wines, we have a short yet succinct list to suit all palates. Like our food, we look to makers who treat the land with care.

And if you are fond of hard liquor, we have arrack, distilled from the flower of the coconut palm. Strong, almost whisky like, it is an essential Lankan drink.

SOFT	Price
